Abbott is a global healthcare leader that helps people live more fully at all stages of life. Our portfolio of life-changing technologies spans the spectrum of healthcare, with leading businesses and products in diagnostics, medical devices, nutritionals, and branded generic medicines. Our 109,000 colleagues serve people in more than 160 countries.

### About Us

#### JOB DESCRIPTION:

##### *About Abbott Biowearables*

Our Biowearables business is an innovative and exciting new venture investigating and commercialising novel technologies and biomarkers that will give people and the professionals who treat them new insights into their health, physical and mental performance. We focus on biowearable technology that helps people understand what their body is telling them and how they can translate these insights into meaningful action so that they can lead a healthier life. We strive to tap into new audiences and indications with focus on empowering health through breakthrough biowearable technology.

Although we are part of a Fortune 500 healthcare company, we embrace the entrepreneurial spirit of a start-up and are not afraid to challenge the status quo. We are preparing for significant growth in new areas of health and healthcare and are assembling a best-in-class team to take us into this new future.

**Abbott** is about the power of health. For more than 125 years, **Abbott** has been helping people reach their potential — because better health allows people and communities to achieve more. With a diverse, global network serving customers in more than 160 countries, we create new solutions — across the spectrum of health, around the

you will lead high-performing cross-functional teams to ensure speed and innovation remain a core competency and that the team is focused, energized and on-track to meet the overall strategic and commercial objectives of our product launches.

The responsibilities of the Program Manager include ongoing strategic rational, planning, scheduling, monitoring, issue escalation and resolution, in addition to representing program status of the project that will result in the timely and quality execution of the projects.

This position requires natural leadership and a high level of independence, the ability to collect, synthesize, and integrate information from multiple sources, and to resolve conflicting requirements and cross-functional issues.

This role reports to the Portfolio Manager and is based in Alameda, CA.

### Main Responsibilities

- Leads cross-functional teams in product introduction and commercialization, as well as special assignments. Depending on project scopes, the Program Manager may lead multiple projects of medium to high complexity concurrently.
- Acts as the central contact between key business, product introduction and commercialization functions. Formulates, harmonizes, and consolidates project scopes, plans, strategies, and budgets for one or more projects, working closely with functional project managers and other subject matter experts from R&D, Operations, Regulatory, Quality, Marketing, and Commercial teams.
- Champion the evolution of the New Product Introduction (NPI) process, along with Portfolio Manager. Identify opportunities to improve process and project team management.
- Confirms the ongoing strategic rationale for projects, and for the ongoing planning, scheduling, monitoring and reporting or projects.
- Prepares and presents information on activities, issues, and risks in the development and commercialization of the new product on an as-

formulations, we are advancing some of the most innovative and revolutionary technologies in healthcare, helping people live their best lives through better health.

The people of **Abbott** come to work each day with relentless energy, enthusiasm and a promise to enhance the health and well-being of millions of people. They push the boundaries to help manage and treat some of life's greatest health challenges.

We invite you to explore opportunities at **Abbott**, to see if your talents and career aspirations may fit with our openings. An equal opportunity employer, **Abbott** welcomes and encourages diversity in our workforce.
